PROFESSIONAL SUMMARY

Detail-oriented Operations Executive with hands-on experience in logistics operations, supply chain coordination, and last mile delivery within fast-paced Quick Commerce environments. Skilled in dispatch planning, warehouse coordination, and vendor and transporter management across platforms including Blinkit, Zepto, Instamart, and BigBasket. Proficient in ERPNext, Microsoft Excel, Google Sheets, and Power BI for MIS reporting, KPI tracking, and data-driven process improvement. Experienced in invoice and GRN reconciliation, PO management, and RTO analysis to strengthen delivery performance and operational accuracy. Recognized for cross-functional coordination with warehouse, procurement, and transportation teams to resolve operational exceptions and drive supply chain analytics. Seeking to leverage operations and analytics expertise in an Operations, Logistics, Supply Chain, or MIS Executive role.

PROFESSIONAL EXPERIENCE

Bajo Foods Pvt. Ltd.

Operations Executive December 2025 – Present

- Manage Last Mile Logistics Operations end-to-end, coordinating daily dispatch planning with warehouse teams to ensure timely order fulfillment.
- Schedule and manage warehouse delivery appointments for leading Quick Commerce platforms including Blinkit, Zepto, Instamart, and BigBasket, strengthening dispatch accuracy and delivery performance.
- Coordinate with drivers, transporters, warehouse POCs, and courier partners to streamline transportation management and shipment tracking across the supply chain network.
- Create and validate invoices and delivery notes, ensuring accuracy and compliance in documentation supporting order fulfillment.
- Punch and manage Purchase Orders (POs) in ERPNext, supporting purchase order management and inventory control processes.
- Monitor shipment dispatch and delivery status in real time, improving operational visibility and reducing shipment delays.
- Perform Invoice vs GRN reconciliation and PO vs Invoice reconciliation, increasing reconciliation accuracy and reducing quantity mismatches.
- Track weekly and monthly RTO percentage on a channel-wise basis, supporting RTO analysis and reverse logistics decision-making.
- Prepare daily, weekly, and monthly MIS reports and logistics KPI reports, improving reporting efficiency for operational stakeholders.
- Partner cross-functionally with warehouse, procurement, and transportation teams to resolve operational exceptions and support operational excellence.
- Analyze logistics and operational data using Microsoft Excel, Google Sheets, and Power BI to identify trends and drive process improvement.
- Build Power BI dashboards as needed to support data analysis, supply chain analytics, and management decision-making.

INTERNSHIP EXPERIENCE

Signature Motors India Pvt. Ltd.

Operations Intern

- Supported daily operational activities across departments, gaining hands-on exposure to warehouse operations and inventory control.
- Assisted with inventory management processes, helping maintain accurate stock records and supporting order readiness.
